

CODE WARS

ICPC-Style Competitive Programming Team Contest

Duration: 2.5–3 Hours

Format: Team Contest

Team Size: Exactly 3 Participants

1. Contest Format

- Code Wars will follow an **ICPC-style team contest format**.
- Each team may consist of **exactly 3 participants**.
- Each team will use **exactly one laptop** for the contest.
- The contest will consist of multiple competitive programming problems of varying difficulty.
- Teams will be ranked based on the **number of problems solved**, followed by penalty time.

2. Laptop & Setup

- Participants must **bring their own laptop**.
- Only **one laptop per team** may be used for solving and submitting problems.
- The required programming environment, compiler, browser, and other necessary software must be **installed and tested before the contest begins**.
- Teams are responsible for ensuring that their system is ready before the contest.
- Organizers may conduct a setup/system check before the contest starts.
- Screen recording is mandatory, setup to be done by the team before reaching the venue. (OBS is recommended)

3. Allowed Resources

- Each team may bring a maximum of **5 pages of pre-written reference material**.
- The 5 pages may contain programming syntax, algorithms, formulas, or other reference material prepared before the contest.
- No additional books, notes, or printed material will be permitted.
- Internet access will be allowed **only as specified by the organizers**.
- Use of generative AI tools, online solution repositories, discussion forums, or external assistance is prohibited.

4. Screen Recording

- **Screen recording is mandatory** for the entire duration of the contest.
- Teams must start recording **before the contest begins** and continue until the contest officially ends.
- The recording must clearly capture the laptop screen and contest activity.

- Teams must submit the recording to the organizers in the specified manner after the contest.
- Failure to provide a valid recording may result in **disqualification**.

5. Contest Rules

- Team members may freely discuss problems and solutions **within their own team**.
- Communication or collaboration with other teams is prohibited.
- Teams may make multiple submissions.
- Incorrect submissions will incur the applicable **ICPC-style penalty**.
- Only submissions made before the official contest end time will be considered.

6. Scoring & Ranking

- Teams are primarily ranked by the **number of problems solved**.
- In case of a tie, the team with the **lower total penalty time** will rank higher.
- For an incorrectly submitted solution to a problem that is eventually solved, a **20-minute penalty** will be added.
- No penalty is applied for problems that remain unsolved.
- The final ranking will be determined by the official contest judging system.

7. Disqualification

A team may be disqualified for:

- Cheating or plagiarism.
- Communication with other teams.
- Using unauthorized resources or external assistance.
- Using more than one laptop.
- Using prohibited AI or online assistance.
- Failure to provide the required screen recording.
- Tampering with the contest system or judging environment.
- Any other violation of the contest rules.

8. Final Decision

The decisions of the organizers regarding **rule interpretation, technical issues, scoring, disputes, and disqualification** will be final and binding.

The organizers reserve the right to make reasonable changes to the rules if required due to unforeseen circumstances.

Think. Code. Compete.

Good Luck!
