Subject: Formal Proposal and Logistics Requisition for “Mathalon 4.0” — A Three-Round Team Mathematics Competition

Respected Sir/Madam,

As part of our efforts to promote mathematical thinking, numerical aptitude, and problem-solving skills among students of the institute, we propose to organize “**Mathalon 4.0**”, a three-round team-based mathematics competition in association with Conchetto '26.

The competition will be conducted in teams of **2–3 participants** and will test students on speed, accuracy, mathematical reasoning, and strategic problem-solving through a variety of numerical mathematics challenges.

1. Event Overview:

Mathalon 4.0 is a team-based mathematics competition designed to encourage students to apply their mathematical knowledge in a competitive and engaging setting. The competition will cover topics such as basic logic, probability, geometry, number theory, recurrence relations, basic calculus, and other fundamental areas of mathematics, with emphasis on numerical problem-solving rather than lengthy proofs.

2. Event Progression

- **Round 1 – General Mathematics Challenge:** Teams will attempt a timed set of questions divided into **Easy, Medium, and Hard** sections, testing their speed, accuracy, and understanding across various mathematical topics.

- **Round 2 – Mathematics Arena:** Teams will select a mathematical topic and a question number/difficulty level from the available options. The actual question will be revealed only after selection, and teams will attempt to solve as many questions as possible within the allotted time.

• **Round 3 – Buzzer Round:** The shortlisted teams will compete in a fast-paced buzzer round. Mathematical questions will be displayed to all teams, who will compete to answer correctly and as quickly as possible.

3. Logistics & Requirements (Provisional Cost Breakdown):

Logistics / Requirement	Estimated Cost (INR)
Venue / Classroom or Lecture Hall (4 classrooms)	Internal Allocation
Question Papers, Printing & Stationery	₹2,000
Certificates, Promotional Posters	₹2,000
Consumables / Refreshments for Judges and Volunteers	₹1,000
Prizes / Awards for Winning Teams	₹20,000
Miscellaneous Requirements	₹500
Total Estimated Budget	₹25,500

4. Request for Approval:

We kindly request your formal approval to conduct “**Mathalon 4.0**” as part of Concetto '26 and to permit the proposed logistical arrangements and provisional budget. Your approval will enable us to finalize the competition rules, prepare the three rounds, arrange publicity and certificates, and make the necessary preparations for conducting the competition during the fest.

We shall be grateful for your kind consideration and approval.

Sincerely,
