

# SPARKATHON

## Official Event Rulebook

|                    |                                        |
|--------------------|----------------------------------------|
| <b>Prize Pool</b>  | ■10,000                                |
| <b>Team Size</b>   | 2–4 members                            |
| <b>Eligibility</b> | Open to participants from all branches |

## 1. Event Overview

Sparkathon is an innovation-oriented technical event that encourages participants to develop creative and practical solutions to real-world engineering problems. Participants analyze the given problem statement, formulate an innovative approach, and present their proposed solution to an evaluation panel.

## 2. Event Structure

- The event consists of one round.
- Problem statements are released prior to the event day, allowing registered teams to understand the problem and develop their proposed solution.

## 3. Presentation & Evaluation

- Teams present their proposed solution before the evaluation panel.
- The presentation is followed by a Question and Answer session.
- The presentation should cover: problem identification and motivation; proposed solution; technical approach and methodology; system design/architecture; feasibility and implementation; advantages and potential impact; limitations and future scope.

## 4. Evaluation Criteria

- Innovation and originality.
- Understanding of the problem.
- Technical feasibility.
- Quality of the proposed solution.
- Practical applicability.
- Presentation and communication skills.
- Ability to answer questions and defend the proposed approach.

## Expected Participation

50 participants
